

OVERVIEW

A compact, durable, and stylish courtesy spotlight designed for residential, commercial, and architectural environments. Built with 316 stainless steel and sealed to IP65, this fixture provides reliable illumination for steps, walls, corridors, pathways, and entryways. Its soft single-color output offers subtle, glare-free lighting that enhances safety and ambiance, while the low power draw makes it ideal for energy-efficient 12V and 24V systems.
